

Trade association climate lobbying alignment - Supplement

Sempra conducted a mid-cycle review of certain trade associations analyzed during the 2023 assessment on climate lobbying alignment described in Sempra's 2023 Corporate Sustainability Report. The mid-cycle review assessed trade associations found to be partially aligned¹ with Sempra in their climate-related policy and advocacy positions as well as one trade association's alignment that was adjusted from aligned to partially aligned. The results of the mid-cycle review include only a representative list of climate-related/energy policies considered partially aligned or misaligned with Sempra's positions and do not reflect all areas evaluated in the 2023 assessment.

Trade association	Alignment ¹	Mid-Cycle review for "partially aligned" trade associations ²
American Council for Capital Formation	Aligned	
American Gas Association	Aligned	
American Petroleum Institute	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra's aims. This mid-cycle assessment examined the trade association's involvement on relevant legislation, including its opposition to the United States Environmental Protection Agency's proposed Clean Air Act Section 111 update to the Clean Power Plan and is inconsistent with Sempra's position.
Bioenergy Association of California	Aligned	
Business Council for Sustainable Energy	Aligned	
California Asian Pacific Chamber of Commerce	Aligned	
California Business Properties Association	Aligned	
California Carbon Capture Coalition	Aligned	
California Chamber of Commerce	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra's aims. However, its positions on climate-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra's aims.
California Council for Environmental and Economic Balance	Aligned	
California Hydrogen Business Council	Aligned	
California Manufacturers & Technology Association	Aligned	
California Renewable Transportation Alliance	Aligned	
California Taxpayers' Association	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra's aims. However, its positions on climate-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra's aims.
California Trucking Association	Aligned	
California Wind Energy Association	Aligned	
Center for LNG	Aligned	
Central City Association of Los Angeles	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra's aims. However, this trade association indicated they have no additional climate-related lobbying activities to review at this time.

¹ For purposes of this review, "aligned" means the organization's mission, lobbying activities and public position on climate and/or energy are consistent with Sempra's energy transition action plan, including our climate ambitions and/or Sempra's sustainable business strategy; "partially aligned" means components of the organization's mission, lobbying activities and public position are aligned with Sempra's energy transition action plan, including our climate ambitions and/or Sempra's sustainable business strategy; "misaligned" means the organization's mission, lobbying activities and public position are not consistent with Sempra's energy transition action plan, climate ambitions and/or Sempra's sustainable business strategy. Determination of "alignment" of any trade association does not represent an endorsement of the organization.

² The mid-cycle review assessed trade associations found to be partially aligned with Sempra in their climate-related policy and advocacy positions as well as one trade association's alignment that was adjusted from aligned to partially aligned. Trade associations noted as "aligned" were not part of this mid-cycle review.

Trade association	Alignment ¹	Mid-Cycle review for “partially aligned” trade associations ²
Central Valley Business Federation	Aligned	
Clean Hydrogen Future Coalition	Aligned	
Chamber Southwest Louisiana	Aligned	
Coalition for Renewable Natural Gas	Aligned	
Edison Electric Institute	Partially aligned	This trade association has demonstrated certain conflicting lobbying activity with Sempra’s aims. This mid-cycle assessment examined the trade association’s involvement on relevant legislation, including its opposition to the United States Environmental Protection Agency’s proposed Clean Air Act Section 111 update to the Clean Power Plan and is inconsistent with Sempra’s position.
Greater Houston Partnership	Aligned	
Green Hydrogen Coalition	Aligned	
Interstate Natural Gas Association of America	Aligned	
Large Scale Solar Association	Aligned	
Los Angeles Area Chamber of Commerce	Aligned	
Los Angeles County Business Federation	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra’s aims. However, its positions on climate-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra’s aims.
Mid-Continent Oil & Gas Association - Louisiana Chapter	Aligned	
Orange County Business Council	Aligned	
San Diego Regional Chamber of Commerce	Aligned	
Texas Association of Business	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra’s aims. However, its positions on climate and energy-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra’s aims.
Texas Oil & Gas Association	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra’s aims. However, its positions on climate-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra’s aims.
U.S. Chamber of Commerce	Aligned	
USLNG Association	Aligned	
Valley Industry and Commerce Association	Partially aligned	This trade association does not have a public climate-related commitment consistent with Sempra’s aims. However, its positions on climate-related legislation (e.g. climate targets, decarbonization strategies and innovations such as hydrogen) did not show inconsistencies with Sempra’s aims.

¹ For purposes of this review, “aligned” means the organization’s mission, lobbying activities and public position on climate and/or energy are consistent with Sempra’s energy transition action plan, including our climate ambitions and/or Sempra’s sustainable business strategy; “partially aligned” means components of the organization’s mission, lobbying activities and public position are aligned with Sempra’s energy transition action plan, including our climate ambitions and/or Sempra’s sustainable business strategy; “misaligned” means the organization’s mission, lobbying activities and public position are not consistent with Sempra’s energy transition action plan, climate ambitions and/or Sempra’s sustainable business strategy. Determination of “alignment” of any trade association does not represent an endorsement of the organization.

² The mid-cycle review assessed trade associations found to be partially aligned with Sempra in their climate-related policy and advocacy positions as well as one trade association’s alignment that was adjusted from aligned to partially aligned. Trade associations noted as “aligned” were not part of this mid-cycle review.
